Quick reference guide for updating touchecg with HD+

1 – Removing the previous Touchecg

- Switch on the computer, make a back-up copy of the (C:\Cardioline\TouchECG\dbMonitor.mdb) patient database folder on an external disc;
- Open the PC Control Panel in the section for uninstalling a program;
- Select «Cardioline TouchECG» and click with the right mouse button, then choose «Disinstalla» (Uninstall);

2 – Installation of the new program

- Insert the installation CD or USB memory key (1) provided;
- Open the «Setup/Setup Touchecg» folder;
- Start the «ToucheECG_setup.exe» program;
- If the program detects an existing installation folder of the program, confirm the use thereof;
- When the program detects the existing database, choose NOT to overwrite it;
- Follow the installation wizard until completion.

Disinstalla o modifica programma

Per modificare un programma selezionarlo dall'elenco, quindi fare clic su Disinstalla, Ripristina.

👫 Centro di controllo Intel®	Intel Corporation

Folder Exists	<
The folder: C:\Cardioline\TouchECG already exists. Would you like to install to that folder anyway?	
Sì No	
Confirm	
C:\Cardioline\TouchECG\dbMonitor.mdb The file already exists. Would you like Setup to overwrite it?	
Sì No	

3 – Preparing the HD+ device

- Open the HD+ device battery cover and insert 2 batteries (A);
- Insert the patient cable into the corresponding socket (B);
- Switch on the HD+ device by pressing the power button (C);

 Click on the Bluetooth icon on the PC and select «Aggiungi un dispositivo Bluetooth» (Add new Bluetooth device). Normally, the icon is found on the Windows taskbar or in the control panel;

4 – Software setup

- Open the Touchecg program using the icon on the computer desktop;
- Click on the Settings button located on the bottom in the vertical bar and right of the screen;
- Open the «Unità ECG» (ECG unit) panel;
- Select the outgoing serial port obtained during the pairing procedure described in point (3);
- Press the «Imposta come predefinito» (Set as default) button and restart the program;
